

Earthmate® GPS BT-20

Bluetooth GPS with NEW Street Atlas USA® 2010 PLUS

Product Descriptions

150 Words

A smart, flexible GPS, mapping, and routing solution offering both Bluetooth™ and USB connectivity. Plugs into your USB laptop PC or UMPC, or works wirelessly with your Bluetooth-enabled laptop, UMPC, PDA, or touchscreen phone (Palm OS or Windows Mobile). Included Street Atlas USA® PLUS DVD software delivers voice-guided navigation, updated street-level detail for the U.S. and Canada, highways and main roads in Mexico. Import and geo-locate your own databases, or the 150 million included phone listings. Create driving routes automatically, with user controls for road preferences. Locate 4 million places of interest—restaurants, lodgings, attractions, truck stops, and businesses of all kinds. Download aerial imagery. Add custom detail. Insert photos, documents, and Web links into your map files. Use MapShare to easily share maps, routes, and directions via secure Web link. Print a variety of map packages, including large-format plots. Package includes 12-volt (lighter jack) and A/C chargers, plus a 3-foot USB power cable.
