

Earthmate® GPS LT-40 PLUS DVD

Includes NEW Street Atlas USA® 2009 PLUS

Product Descriptions

150 Words

An intelligent GPS solution for laptops and UMPCs. DeLorme's newest USB-powered GPS receiver features a new super-high-sensitivity STMicroelectronics chipset for our fastest satellite acquisition ever, and DeLorme ConstantLock™ technology for surefire signal retention even in challenging GPS environments. New NavMode makes GPS tracking easier than ever with optional 3-D perspective and larger, more accessible user controls. Included Street Atlas USA® PLUS DVD software delivers voice-guided navigation, updated street-level detail for the U.S. and Canada, highways and main roads in Mexico. Import and geo-locate your own databases, or any of the 150 million included phone listings. Create driving routes automatically, with user controls for road preferences. Locate 4 million places of interest—restaurants, lodgings, attractions, truck stops, and businesses of all kinds. Download aerial imagery. Add custom detail. Insert photos, documents, and Web links into your map files. Use MapShare™ to send maps, routes, and directions. Print a variety of map packages, including large-format plots.

100 Words
