

Earthmate® LT-40 GPS

Product Descriptions

125 Words

Turn your laptop PC or netbook into a powerful GPS navigator, with voice-guided navigation, automatic back-on-track, GPS Radar to locate travel services, and a new E-Z Nav wizard for effortless on-the-go routing. The LT-40 includes a high-sensitivity chipset for fast satellite acquisition, and DeLorme ConstantLock™ technology delivers surefire signal retention even in challenging GPS environments. Enjoy superior GPS tracking with NavMode, including optional 3-D perspective and large, easily accessible user controls. Use E-Z Nav to locate and route to nearby hotels, restaurants, attractions, sports venues, and businesses of all types – most with phone numbers included. Create routes automatically with user controls to ensure you take the roads you prefer. Calculate fuel usage and costs, and GPS-navigate with total confidence anywhere in the U.S. or Canada, and on major roads in Mexico. Add U.S. aerial imagery, and see your landmarks as you navigate.

100 Words
