

# New! Street Atlas USA® 2009 PLUS DVD

## Product Descriptions

### 150 Words

An affordable yet powerful set of mapping tools that allow businesses and advanced mapping enthusiasts to visualize their data on detailed DeLorme maps. Import and geo-locate your own text files from Excel, ACT!, and other database programs. Updated street-level detail for the U.S. and Canada, major roads for Mexico. Use the 150 million included phone listings to create databases (e.g., supermarkets within a radius), or find friends or services. Create driving routes automatically, with user controls to take the roads you prefer—avoid congestion or take scenic drives. Locate 4 million places of interest—restaurants, lodgings, attractions, truck stops, sports venues, and businesses of all kinds. Add custom detail. Insert photos, documents, and Web links into your map files. Use MapShare to easily share maps, routes, and directions via secure Web link. Print a variety of map packages, including large-format plots. GPS-ready with voice navigation and other high-end features.

### 100 Words

Import and geo-locate business data from Excel, ACT!, and other spreadsheet or database programs. See updated street-level detail for the U.S. and Canada, major roads for Mexico. Use the 150 million included phone listings to create databases or find services. Create driving routes automatically. Locate 4 million places of interest—restaurants, lodgings, attractions, truck stops, and businesses of all kinds. Add custom detail. Insert photos, documents, and Web links into your map files.
